Some of the provisions of the Circulars are:

- a) The facility for acquisition of shares through Stock Exchange mechanism pursuant to offer shall be available on the Stock Exchange in the form of a separate window (the “Acquisition Window”).
- b) The acquirer or company may choose to use the Acquisition Window provided by more than one Stock Exchange having nationwide trading terminal and in that case, one of the exchanges shall be chosen as the "Designated Stock Exchange"(DSE).
- c) In case of competing offers under Regulation 20 of the Takeover Regulations, each acquirer will apply for and use separate Acquisition Windows during the tendering period. If one acquirer chooses to use acquisition window of one Stock Exchange having nationwide trading terminal, it would not be mandatory for the other acquirer to choose the same Stock Exchange.
- d) The acquirer/ company shall appoint a stock broker registered with the SEBI for the offer. Such broker may also undertake transactions on behalf of sellers.
- e) The shares tendered by the shareholder under the offer shall be transferred directly to Clearing Corporation of the stock exchange providing Acquisition Window (CC) using early pay-in mechanism prior to placing the bid by the seller broker.
- f) Once the basis of acceptance is finalised, Clearing Corporation would transfer unaccepted shares directly to the shareholders’ Demat accounts. If the securities transfer instruction is rejected in the depository system, due to any issue then such securities will be transferred to the seller broker’s depository pool account for onward transfer to the shareholder
- g) Clearing Corporation will settle the trades by making direct funds payout to shareholders in their Bank Account as per the information received from the Depositories. If shareholders bank account details are not available or if the funds transfer instruction is rejected by RBI/bank, due to any issue then such funds will be transferred to the seller broker’s settlement account for onward transfer to shareholder
